Gender : Male
DOB : 24/03/2002
Nationality : Indian
Address : 35 Madurai road,bharath lab sankarnagar tirunelveli , 627357

ACADEMIC PROJECTS

Dental clinic appointment booking website

Developed an application for a dental clinic with patient appointment scheduling, doctor and staff management, billing, reminders, and record keeping, streamlining clinic operations and enhancing patient experience.

Spam Detection Using Machine Learning

Developed a machine learning-based system to detect spammers by analyzing user behavior and message patterns. Implemented classification algorithms to improve accuracy, reduce false positives, and enhance online communication security

Flight Ticket Booking Application

Developed a complete UI/UX design for a flight ticket booking application, including ticket management, flight selection, route planning, and a seamless user experience for booking and checkout.

DECLARTION

I hereby declare that the above-mentioned information is true, and I bear the responsibility for the correctness of the above-mentioned particulars
